LCDR Codd,

Apologies for any confusion, EPA did not make an RP determination during the response. Mr. Saldarelli with Ozinga was our point of contact and to my knowledge was organizing the response. Since the other parties did not appear to present themselves during the response we were left with Mr. Salderelli as our only contact.

I'm guessing each party will be disputing payment for this response. Ozinga has provided a summary of the response (attached in their last e-mail) however it does not appear to document the RP. Please feel free to give Tom or I if you have any questions.

Thanks,  
Rob

LCDR Codd,

On September 14th, 2018, the Tire Derived Fuel (TDF) spontaneously combusted and became engulfed in flames. The TDF was owned by Liberty Tire Recycling, LLC. Therefore, Liberty Tire Recycling, LLC, is the responsible party. They can be reached at the following addresses:

Liberty Tire Recycling, LLC  
1251 Waterfront Place  
4th Floor  
Pittsburgh, PA 15222

Or

Liberty Tire Recycling, LLC  
2001 Greenfield Road  
Montgomery, IL 60538

Please see the letters submitted to USEPA on October 8th, 2018 and March 5th, 2019, discussing the incident.

Please contact me if you have any questions.

Thanks,  
Mike Saldarelli

Subject: RE: FPN E18523 - Ozinga Tire Fire

Sir,

Thank you for the phone call. I spoke to the EPA OSC today and asked him who they considered to be the RP in this case, and he said Ozinga. After speaking with you, it may appear that facts in this case point to a different RP, Liberty Tire. As articulated by you, it seems as if the tires (owned by Liberty Tire), spontaneously combusted. Not certain if that information/documentation was given to the EPA OSC.

Mr. Kondreck, can you please confirm the finer points of this response so that we ensure we ID the correct RP. A POLREP for this FPN would be much appreciated as well.

Lastly, Mr. Saldarelli, I understand that your company managed the response and hired contractors as it related to mitigating the threat of pollution from the tire fire. If that is the case, and you are not the RP, the Coast Guard has a claims process that you may be interested in if Liberty Tire has not reimbursed you for those expenses. It's not my area of expertise, but a Mr. Proctor is copied and someone on his staff may be able to answer any questions you may have and walk you through what that process looks like.

Appreciate everyone's efforts to get the record straight.

Very Respectfully,

LCDR John Codd

Subject: FPN E18523 - Ozinga Tire Fire

Good afternoon Mr. Saldarelli,

I am the case officer assigned to Federal Project number E18523. I understand from the EPA that your company has been identified as the Responsible Party in this pollution matter. I was hoping I could get a good mailing address for correspondence associated with cost recovery on this case. I do not believe the EPA spent much money (which they get from us), but whatever they submit to me for reimbursement, will be eventually be billed to Ozinga Tire.

Please forward me a good address and the best POC to discuss this matter in further detail.

Thanks in advance.

Very Respectfully,

LCDR John Codd
